ABSTRACT

This bulletin represents an effort by the New Careers in Education Project to facilitate the exchange of data among the New Jersey schools implementing individually guided education (IGE). The bulletin is organized into three sections. The first is an alphabetical listing of all IGE schools in New Jersey, followed by the school's code number. The second section is a chart containing pertinent data from the schools which submitted information by December 1, 1974, preceded by a key of symbols used in the chart. The data include general organization, unit information, curriculum, concepts, and materials. The third section is a numberical listing of IGE schools according to code number. This listing gives the school's county and district; the superintendent's name, address, and phone number; the school's name, address, and phone number; and the names of the school's secretary and principal. # FOREWORD

The 1974-75 Pertinent Data Bulletin represents the continuing effort by the New Careers in Education Project to facilitate the exchange of data among the New Jersey schools implementing Individually Guided Education (IGE).

The Bulletin is organized in three sections: 1) an alphabetical listing of all the IGE schools, followed by the school's code number; 2) the pertinent data for the schools who submitted the information by December 1, 1974 — preceded by a key of symbols; 3) a 'Directory of Schools' which is a numerical listing of IGE schools according to the code number; the 'Directory' gives the school's code number, county, district, superintendent's name/address/phone number, the school's name/principal's name/secretary's name/school's address/school's phone number.

The Project is indebted to participating school district personnel who assisted in the information retrieval process.
